The *Kaiser Commission on Medicaid and the Uninsured* serves as a policy institute and forum for analyzing health care coverage and access for the low-income population and assessing options for reform. The Commission, established in 1991, strives to bring increased public awareness and expanded analytic effort to the policy debate over health coverage and access, with a special focus on Medicaid and the uninsured. The Commission is a major initiative of the Henry J. Kaiser Family Foundation and is based at the Foundation's Washington, D.C. office. Additional publications can be found at [www.kff.org](http://www.kff.org).
